SECTION 1 — LIVE SITE AUDIT FINDINGS

1.1 What the audit found — confirmed on yandnow.com on July 2026

Every finding below is confirmed from the live site. Nothing is assumed. Placeholders have been used only where data is genuinely missing from public pages.

CRITICAL — Fix Immediately

1. Talent Management Suite — all 6 steps show identical copy

Location: /our-platform — 'Y&Now Talent Management Suite' section

Evidence: Steps 2 through 6 all read: 'We start by understanding your operations, roles, SOPs, safety mandates, and capability requirements.' — word for word identical to Step 1.

Impact: A platform prospect reading this section loses confidence in the product immediately. The section is supposed to differentiate a 6-step methodology. It currently conveys nothing.

- FIX: Write distinct content for each of the 6 steps (see Section 4 for revised copy directions)

2. Data Security FAQ — answers are completely scrambled

Location: /our-platform — 'Data security & compliance' FAQ section

Evidence confirmed from live page:

- Q: 'How does Y&Now protect user data?' → A: 'You can reach support via the Help button...' (this is a support answer)
- Q: 'Where is user data stored?' → A: 'Support hours depend on your region and plan...' (this is a support answer)
- Q: 'Does Y&Now comply with data protection regulations?' → A: 'Use Forgot Password on the login page...' (this is a password reset answer)
- Q: 'Who owns the data on the platform?' → A: 'Try these steps: Switch to a stable Wi-Fi connection...' (this is a connectivity troubleshooting answer)

Impact: Enterprise procurement teams run security due diligence. A scrambled FAQ signals either technical incompetence or that Y&Now doesn't take data governance seriously. Either is disqualifying.

- FIX: Full rewrite of all Data Security FAQ answers (see Section 4)

3. All impact counters show zero

Location: Homepage and /corporate — 'MEASURABLE OUTCOMES' and 'Proven Upliftment' sections

Evidence: 'Corporate Partnerships across Asia: 0+' | 'Learners Trained Annually: 0 K+' | 'Instructors, Mentors & Facilitators: 0+' | 'Program Completion Rate: 0%'

Impact: A CSR head or enterprise L&D buyer lands on the homepage and sees the impact section showing zero for everything. This is worse than having no numbers — it signals an incomplete or abandoned site.

- FIX: Insert verified metrics from M&E team immediately. If metrics are not yet verified, remove the counter section entirely until they are ready. A placeholder counter showing zero is never acceptable on a live site.
- [INSERT: Corporate partnerships count — M&E/Business team]
- [INSERT: Learners trained annually — M&E team]
- [INSERT: Instructors/facilitators count — HR/Operations]
- [INSERT: Programme completion rate — M&E team]

4. TATA case study truncated mid-sentence on platform page

Location: /our-platform — opening section

Evidence: 'TATA Group, India's largest conglomerate, sought a modern L&D partner to strengthen behavioral competency across diverse teams...TATA Group, India's largest conglomerate, sought a modern L&D partner to strengthen behavioral competency across diverse teams...'

Impact: The sentence repeats itself and is cut off. It is the first piece of content a platform prospect sees after the H1.

- FIX: Either complete the case study preview or remove it and replace with the platform value proposition. See Section 4 for revised homepage content.

HIGH PRIORITY — Fix Within 2 Weeks

5. Homepage H1 has no commercial keyword and no service statement

Current H1: 'What you learn today, shapes tomorrow'

Current meta description: 'Empowering Minds. Transforming Futures. Industry-ready learning programs designed to help students and professionals grow with practical skills.'

Impact: Google cannot assign a commercial topic to the homepage. Searches for 'corporate workforce training India' or 'CSR skilling partner India' will not surface yandnow.com. The meta description targets individual students — the B2B audience is invisible in the description.

- FIX: See Section 4 for revised H1 and Section 5 for revised meta tags.

6. 'Why Corporates Partner With Us' section has wrong content

Location: /corporate

Evidence: The section reads: 'Creating meaningful community impact requires structured execution, strong governance, and deep understanding of local ecosystems. Organizations today need implementation partners who can deliver measurable outcomes while maintaining accountability, scalability, and long-term sustainability.'

Impact: This is CSR/NGO positioning language on the Corporate L&D page. It describes community impact programmes, not enterprise workforce capability. A corporate L&D head reading this is confused about whether Y&Now is a training company or an NGO.

- FIX: Rewrite with corporate workforce development positioning (see Section 4)

7. Blog section shows only posts from September 11, 2020

Location: Homepage 'INSIGHTS & PERSPECTIVES' section and /blog

Evidence: Three blog posts — all dated September 2020. Titles: 'Role of teachers in the digital era' / 'Skilling during COVID19' / 'Future of work life and the emerging changes'.

Impact: A prospective client checking the blog sees content from 6 years ago including COVID-specific content. Signals the organisation may not be currently active or invested in thought leadership.

- FIX: Either remove the blog section from the homepage until new content is published, or refresh/republish with current dates and updated content.

8. 'Case Snippet: Pilot at Acme Plant' — placeholder client name on live page

Location: /industry-solutions — Manufacturing & Precision Engineering section

Evidence: 'Case Snippet: Pilot at Acme Plant reduced first-pass yield defects by 18% in 8 weeks.' — 'Acme' is a fictional placeholder company name.

Impact: Industry sector pages should carry real client evidence. A manufacturing plant manager seeing 'Acme Plant' as the reference immediately recognises a placeholder.

- FIX: Replace with real client name (with permission) or replace with anonymised description: 'A pilot at an automotive manufacturing plant in [state] reduced first-pass yield defects by 18% in 8 weeks.'
- [INSERT: Real client name or approved anonymisation — Account team]

9. Navigation puts 'About Us' under 'More' dropdown

Current structure: About Us is buried under More > About Us

Impact: About Us is a primary trust page. CSR partners, enterprise procurement teams, and government bodies look for it immediately. Hiding it under a 'More' dropdown signals it is an afterthought.

- FIX: Promote About Us to primary navigation

10. CSR page testimonial appears to be a placeholder

Location: /csr-programs

[VERIFY: Live site shows 'Peter Watson, CEO' testimonial with CEAT logo — confirm whether this is a real CSR client relationship or a placeholder. If placeholder, remove immediately. BD team to confirm.]

SECTION 2 — INFORMATION ARCHITECTURE (FULL SITE MAP)

2.1 Architecture Principle

broadarks.com is the parent company website. yandnow.com is a dedicated division site, linked from broadarks.com as a service vertical. The Y&Now IA should make this relationship visible — without creating confusion about which entity a client is contracting with.

2.2 Proposed Full Site Map

HOME (/)	Primary audience router. Commercial positioning. Proof. Six audience routes.
CSR (/csr-programs)	PARENT — Skill development, livelihood, veteran transition, community development
→ Skill Development (/csr-programs/skill-development)	Child page — NSDC-aligned employability skilling
→ Veteran Transition (/csr-programs/veteran-transition)	Child page — post-service resettlement via CSR
→ Livelihood & Entrepreneurship (/csr-programs/livelihood)	Child page — women, SHGs, micro-enterprise
→ Community Development (/csr-programs/community-development)	Child page — broader social infrastructure programmes
OUR EXPERTISE (nav group)	Dropdown holding all delivery verticals
→ Corporate (/corporate)	Enterprise L&D, capability, workforce performance
→ Industries (/industry-solutions)	Manufacturing, precision engg, regulated sectors
→ Defence (/defence-programs)	Veteran resettlement, upskilling in-service forces
→ School Solutions (/school-solutions)	Youth capability, teacher training, applied skills
→ Micro-Entrepreneurship (/micro-entrepreneurship)	Livelihood, SHG, market linkage programmes
FOR LEARNERS (/learners-b2c)	Individual B2C learning paths — retain, expand evidence
OUR PLATFORM (/our-platform)	LMS + Assessment + PMS — product page
→ Integrations (/our-platform/integrations)	NEW child page — HRMS/ERP/SSO detail
ABOUT US (/about-us) ← PROMOTE TO PRIMARY NAV	Company, mission, leadership, partners, ISO cert
→ Who We Are (/about-us/who-we-are)	Mission, history, BroadArks parent relationship
→ Leadership (/about-us/leadership)	Team bios [INSERT: full bios needed]
→ Strategic Partners (/about-us/partners)	NSDC, CRISP, MPIHTTS, SGSU, CVRU, iACE, IIP, Sagar
→ Broadarks Technology (/about-us/broadarks)	NEW — explains parent company + Y&Now relationship
RESOURCES (nav group)	
→ Case Studies (/case-studies)	Existing — expand with structured pages per client

→ Insights / Blog (/blog)	Refresh with current content — remove 2020 posts from homepage
→ FAQ (/resources/faq)	NEW — critical for AEO/AI search visibility
CAREER (/jobs)	Individual dated role pages — [INSERT: current openings]
CONTACT US (/contact-us)	Retain — add audience-specific routing

2.3 Navigation Restructure

Nav item	Current location	Proposed location
Home	Primary	Primary — no change
CSR	Primary	Primary — no change
Corporate	Our Expertise dropdown	Our Expertise dropdown — no change
Industries	Our Expertise dropdown	Our Expertise dropdown — no change
Defence	Our Expertise dropdown	Our Expertise dropdown — no change

Integrations detail	Does not exist	CREATE: /our-platform/integrations/
BroadArks relationship	Does not exist	CREATE: /about-us/broadarks/

SECTION 3 — PAGE-BY-PAGE CONTENT BLUEPRINTS

3.1 Homepage (/)

Priority: 1 of 12 | Audience: All — primary routing page | Current score: Poor

Current vs Proposed

H1 (current)	'What you learn today, shapes tomorrow' — no keyword, no service
H1 (proposed)	Y&Now: Workforce Capability Solutions Trusted by 3,800+ Organisations
Meta title (current)	Home - yandnow
Meta title (proposed)	Workforce Skilling & EdTech Solutions Y&Now (54 chars)
Meta desc (current)	Empowering Minds. Transforming Futures. Industry-ready learning programs...
Meta desc (proposed)	Y&Now delivers industry-aligned skilling and a capability platform for enterprises, CSR, defence, and schools across India. 3,800+ organisations.
Opening paragraph	MISSING — no executive summary paragraph on the page
Impact counters	0 K+ / 0+ / 0% — all showing zero [INSERT: real metrics]
Blog section	3 posts from September 2020 — remove from homepage
Primary CTA	'Contact Us' + 'About Us' — both generic. Replace with audience-specific routes.

Proposed Homepage Section Order

- Hero — H1 + 2-line subheading + two CTAs: 'Explore Corporate Solutions' + 'Talk to Our Team'
- Social proof bar — '3,800+ organisations trust Y&Now' + client logo marquee (retain existing)
- 'Who we serve' — 6 audience cards: Corporate / Industries / CSR / Defence / Schools / Learners
- Platform preview — 3-card: Assess + Learn + Perform. CTA: 'See the Platform'
- 5-step framework — Access → Train → Apply → Perform → Improve (retain existing, rename 'Access' to 'Assess')
- Case studies preview — Tata, JSW, Castrol, BPCL, Jaquar testimonials (retain existing)
- Impact metrics — [INSERT: verified counters — M&E team]. Remove entirely if not verified.
- Strategic partners — NSDC, CRISP, MPIHTTS logos (retain)
- FAQ section (NEW) — 5 questions for AI search visibility
- Footer CTA: 'Ready to build workforce capability? Talk to Y&Now.'

Homepage FAQ (NEW — for AEO/AI visibility)

Q: What does Y&Now do?	Y&Now designs and delivers workforce capability programmes for enterprises, CSR sponsors, government bodies, defence establishments, and schools across India. We combine on-ground programme delivery with a proprietary digital platform covering assessment, learning, and performance management.
Q: Which organisations has Y&Now worked with?	Y&Now has partnered with over 3,800 organisations including Tata Group, JSW, Castrol India, BPCL, Jaquar, Indian Army, Indian Oil, Boeing, Reliance Foundation, and NSDC, among others.
Q: What is the Y&Now platform?	The Y&Now platform integrates a Learning Management System (LMS), role-based assessment tools, and OKR-based Performance Management into a single system. It connects with existing HRMS and ERP platforms via SSO, REST APIs, and SCIM provisioning.

Q: Is Y&Now NSDC-accredited?	Y&Now works with NSDC, NCVET, and DGT for accreditation and co-badging on applicable programmes. [INSERT: confirm current accreditation status — Accreditation team]
Q: How is Y&Now different from a standard training vendor?	Y&Now links learning to measurable performance outcomes — not just course completion. Our 5-stage framework (Assess, Train, Apply, Perform, Improve) ensures capability translates into on-the-job execution, measured through OKRs, supervisor sign-offs, and operational signals.

3.2 Corporate (/corporate)

Priority: 2 of 12 | Audience: Enterprise L&D heads, CHROs, training managers | Current: Needs rewrite

Critical fixes

- 'Why Corporates Partner With Us' section — complete rewrite required. Currently describes CSR/community impact, not enterprise L&D.
- Impact counters showing '0 K+', '0%', '0+' — replace with verified metrics or remove
- 'Reviews: 0 K+' counter — remove or replace

Revised 'Why Corporates Partner With Us' — direction

CURRENT (wrong — describes CSR/NGO work): 'Creating meaningful community impact requires structured execution, strong governance, and deep understanding of local ecosystems...' REVISD DIRECTION: Focus on enterprise L&D outcomes. Reference the 5-stage methodology, platform integration, and named client outcomes. Example opening: 'Enterprise organisations choose Y&Now because our programmes are built around operational performance signals, not course completion metrics. We embed learning into workflow, measure outcomes through OKRs and supervisor evidence, and integrate directly with existing HRMS and ERP systems — so L&D investment is visible in business results, not just learning dashboards.'

Corporate page content requirements

H1	Build Workforce Capability That Drives Business Performance
Meta title	Corporate Workforce Training & L&D Solutions Y&Now (53 chars)
Meta description	Y&Now builds enterprise workforce capability across operational performance, digital adoption, leadership and customer excellence. Tata, JSW, Castrol, BPCL, Jaquar.
Opening paragraph	Y&Now partners with enterprise organisations to build workforce proficiency across roles, functions, and levels. Our programmes link learning to operational performance — with outcomes measured through OKRs, supervisor sign-offs, and business-aligned KPIs.
Sections	Programme categories → Execution model (5 steps) → Why partner (REWRITE) → Case studies
Primary CTA	Design a Corporate Programme
Secondary CTA	Request a Platform Demo
Evidence required	[INSERT: verified enterprise metrics — M&E team — e.g. '18% reduction in defect rates at [client]', 'Castrol: measurable improvement in conversion rates']

3.3 Our Platform (/our-platform)

Priority: 3 of 12 | Audience: L&D heads, CHROs, IT decision-makers | Current: Major content errors

The 6-step Talent Management Suite — required distinct content per step

Step 1 — Client Onboarding & Alignment	We begin with a structured discovery session covering your workforce structure, role requirements, SOPs, safety mandates, and existing capability gaps. Outputs: role profiles, capability framework, and a deployment roadmap aligned to your business priorities.
Step 2 — Talent Assessment & Baseline Mapping	Role-based assessments establish a baseline competency profile for each employee. We combine scenario-based evaluations, technical checks, and compliance audits to map current skill levels against job requirements. Output: individual skill heatmaps and gap reports.
Step 3 — Personalised Learning Path Creation (LMS)	Learning paths are built per role and per individual, drawing from the platform's content library, SCORM/xAPI modules, AR/VR simulations, and microlearning assets. Each path is sequenced to move learners from baseline to role-proficient in the shortest effective time.
Step 4 — Continuous Performance Monitoring (PMS)	As learning progresses, OKRs and performance milestones are tracked through the PMS. Supervisor check-ins and on-the-job evaluations validate whether learning is translating into workplace execution. Data flows into the client's HRMS for consolidated reporting.
Step 5 — Engagement & Retention Programmes	Beyond initial capability building, we support ongoing engagement through refresher learning, peer cohorts, recognition frameworks, and career development pathways. This reduces attrition and sustains performance improvement over time.
Step 6 — Analytics & ROI Reporting	Real-time dashboards show completion rates, competency progression, assessment scores, OKR achievement, and time-to-competence metrics. Monthly or quarterly impact reports are shared with L&D leadership, aligned to agreed KPIs and business objectives.

Data Security FAQ — corrected answers

Q1: How does Y&Now protect user data?	Y&Now implements role-based access controls, encrypted data transmission (TLS), and audit logging across all platform interactions. Administrative access is restricted on a least-privilege basis, and all data exchanges between the platform and client HRMS/ERP systems use authenticated, encrypted API connections.
Q2: Where is user data stored?	User data is stored on [INSERT: hosting region — e.g. AWS India/Mumbai or equivalent]. Data residency can be confirmed for enterprise clients with specific compliance requirements. [INSERT: confirm hosting provider and region — Tech/Infrastructure team]
Q3: Does Y&Now comply with data protection regulations?	Y&Now operates in accordance with applicable Indian data protection legislation. Enterprise clients with cross-jurisdictional requirements (GDPR, etc.) can request a Data Processing Agreement. [INSERT: confirm specific compliance certifications — Legal team]
Q4: Who owns the data on the platform?	All learner data, completion records, and assessment results generated by an enterprise client's workforce remain the property of that client organisation. Y&Now does not use client data for any purpose outside of service delivery.
Q5: How is access to sensitive data controlled?	Access to sensitive data is governed by role-based permissions. Learners see only their own records. Managers see data for their direct reports. Administrators access organisation-wide analytics. All access is logged and auditable.
Q6: Are assessments and certifications secure?	Assessments use session controls, authentication checks, and audit logs. Selected programmes support proctored delivery. Certificates are digitally issued with verification links. [INSERT: confirm specific proctoring tools used — Product team]
Q7: Can enterprise clients request security documentation?	Yes. Enterprise clients can request a Security Overview Document, Data Processing Agreement, and information on our ISO 9001:2015 certification.

	Contact info@broadarks.com with subject line 'Security Documentation Request'.
Q8: What happens if there is a security incident?	Y&Now maintains an incident response protocol. In the event of a security incident affecting client data, affected organisations are notified within [INSERT: notification timeframe — Legal/Tech team] in accordance with applicable regulations.

Platform page content requirements

H1	Y&Now Capability Platform: Assess, Learn, and Track Performance in One System
Meta title	Workforce Capability Platform: LMS, Assessment & PMS Y&Now (60 chars)
Meta description	Y&Now's platform connects learning, role-based assessment, and OKR performance reviews with HRMS and ERP integrations. Built for enterprise and industrial workforces.
Opening paragraph fix	Remove the truncated TATA case study from the opening. Replace with: 'Y&Now connects digital learning, assessments, and performance reviews into a single capability platform. It integrates with HRMS and ERP systems — enabling organisations to measure skill gaps, deliver targeted learning, and track on-the-job performance without disrupting existing workflows.'
Primary CTA	Request a Platform Demo
Secondary CTA	Download Platform Overview [INSERT: PDF link]

3.4 CSR Programs (/csr-programs)

Priority: 4 of 12 | Audience: Corporate CSR heads, foundations, government CSR committees

H1	CSR Skill Development & Livelihood Programmes Y&Now
Meta title	CSR Skilling & Livelihood Programmes India Y&Now (52 chars)
Meta description	Y&Now delivers end-to-end CSR skilling programmes aligned to Schedule VII of the Companies Act — covering skill development, veteran transition, livelihoods, and community development with measurable outcomes.
Opening paragraph	Y&Now is a structured CSR implementation partner for corporations and foundations seeking measurable community impact. We design, deliver, and report on skill development, livelihood, and community programmes aligned to Schedule VII of the Companies Act, 2013 — with independent monitoring, transparent reporting, and impact documentation.
Critical fix	VERIFY testimonial attributed to 'Peter Watson, CEO' with CEAT logo. If this is a real client, confirm name/title and retain. If placeholder, remove immediately and replace with [INSERT: verified CSR client testimonial — BD team].
Impact counters	[INSERT: verified CSR metrics — M&E team: individuals reached, employment linkage %, women participation %, household income improvement]
Primary CTA	Partner on a CSR Programme
Child pages required	Skill Development / Veteran Transition / Livelihood & Entrepreneurship / Community Development

3.5 Industry Solutions (/industry-solutions)

Priority: 5 of 12 | Audience: Plant managers, EHS heads, L&D in industrial sector companies

Critical fix	'Case Snippet: Pilot at Acme Plant' — replace 'Acme' with real client name (approved) or anonymised description
H1	Industry-Specific Workforce Training Solutions Y&Now
Meta title	Industrial Workforce Training — Manufacturing, EHS & Precision Y&Now
Opening paragraph	Y&Now designs sector-specific training for industrial workforces — combining blended learning, AR/VR simulation, and on-the-job evidence capture. Each programme is calibrated to the technical, safety, and compliance requirements of the specific sector, with traceable outcomes and NSDC/NCVET/DGT co-badging where applicable.
Case snippet fix	'A pilot at a manufacturing plant client reduced first-pass yield defects by 18% in 8 weeks.' — [INSERT: confirm real client name or approved anonymisation — Account team]
Primary CTA	Request a Sector Pilot
Sub-pages needed	Manufacturing & Precision Engg (exists) [INSERT: other active sectors — Programme team]

3.6 About Us (/about-us)

Priority: 6 of 12 | Promote to primary nav | Audience: All — trust and credibility page

Nav change	PROMOTE to primary navigation. Remove from 'More' dropdown.
H1	About Y&Now — Future-Skills EdTech Division of BroadArks Technology
Meta title	About Y&Now Workforce Capability & EdTech, Bhopal India (58 chars)
Opening paragraph	Y&Now is the future-skills EdTech division of BroadArks Technology Pvt. Ltd. We build workforce capability for enterprises, government bodies, defence establishments, communities, and schools through industry-aligned programmes and a proprietary digital platform. Headquartered in Bhopal, Madhya Pradesh, and ISO 9001:2015 certified.
Must include	BroadArks Technology parent relationship ISO 9001:2015 with [INSERT: cert number] Leadership team with full bios [INSERT — HR/Leadership] Strategic partners section Mission and values Client logos marquee
Primary CTA	Talk to Our Team
New child page required	/about-us/broadarks — explains the BroadArks Technology → Y&Now → Foundation relationship clearly

3.7 FAQ Page (/resources/faq) — NEW PAGE

This page does not exist. It is critical for AI search visibility (ChatGPT, Perplexity, Google AI Overviews).

H1	Frequently Asked Questions — Y&Now
Meta title	Y&Now FAQ — Workforce Training, Platform & CSR Programmes (57 chars)
Meta description	Answers to common questions about Y&Now's workforce skilling programmes, capability platform, CSR implementation, defence transition, and enterprise onboarding.
Minimum questions	20 FAQs across 5 categories: About Y&Now / Corporate programmes / CSR programmes / Platform / Getting started
Primary CTA	Still have a question? Contact us at info@broadarks.com

Required FAQ topics — minimum coverage

- About Y&Now: What is Y&Now? Who owns Y&Now? Where is Y&Now based? Is Y&Now ISO certified?
- Corporate: What industries does Y&Now serve? How does the 5-stage methodology work? How are outcomes measured? How long does onboarding take?
- CSR: What CSR programmes does Y&Now offer? How does Y&Now report CSR outcomes? Which Schedule VII categories apply?
- Platform: What does the platform include? Which HRMS/ERP systems does it integrate with? Is it mobile-accessible? How is data secured?
- Getting started: How do I request a demo? What is the typical programme timeline? Who do I contact?

SECTION 4 — SEO, TECHNICAL & AEO STRATEGY

4.1 Keyword Map

All B2B primary. Individual learner (B2C) keywords are secondary.

Page	Primary keyword	Secondary keywords
Homepage	workforce skilling solutions India	EdTech India B2B, capability development platform India
Corporate	corporate workforce training India	enterprise L&D India, workforce capability programmes, corporate skilling partner
CSR Programs	CSR skill development programmes India	CSR skilling partner India, Schedule VII skilling, CSR livelihood programmes
Industry Solutions	industrial workforce training India	manufacturing training India, NSDC certified industrial training, AR/VR training India
Our Platform	workforce LMS assessment platform India	capability platform HRMS integration, OKR performance management LMS
Defence	veteran transition programmes India	ex-servicemen civilian employment India, defence resettlement programmes
School Solutions	vocational training school India	NSQF school programmes India, school skill development
About Us	Y&Now EdTech Bhopal India	BroadArks Technology Y&Now, ISO 9001 training company India
CSR → Skill Dev	CSR skilling employability India	NSDC CSR programme, Schedule VII skill development
CSR → Veteran	CSR veteran transition India	ex-servicemen CSR skilling, defence to civilian CSR
Case Studies	corporate training case studies India	workforce training outcomes India, L&D ROI case study
FAQ	Y&Now FAQ workforce training	corporate skilling FAQ, CSR programme FAQ India

4.2 Meta Tag Template

TITLE TAG RULES: • 50–60 characters maximum • Format: [Specific topic] | Y&Now • Primary keyword near the front • Never: 'Page Name - yandnow' (current pattern — generic, no keyword) **META DESCRIPTION RULES:** • 150–160 characters • Include primary keyword + one proof point (client name or metric) + soft CTA • Never: 'Empowering Minds. Transforming Futures.' (current pattern — not indexable, no keyword)

Page	Proposed title tag	Proposed meta description
Homepage	Workforce Skilling & EdTech Solutions Y&Now	Y&Now delivers industry-aligned skilling and a capability platform for enterprises, CSR, defence, and schools across India. Trusted by 3,800+ organisations.
Corporate	Corporate Workforce Training & L&D Solutions Y&Now	Y&Now builds enterprise workforce capability across operational performance, digital adoption, leadership and customer excellence. Trusted by Tata, JSW, Castrol, BPCL, Jaquar.

CSR Programs	CSR Skilling & Livelihood Programmes India Y&Now	Y&Now delivers end-to-end CSR skilling programmes aligned to Schedule VII. Skill development, veteran transition, livelihoods, and community development with measurable outcomes.
Our Platform	Capability Platform: LMS, Assessment & PMS Y&Now	Y&Now's platform connects learning, role-based assessment, and OKR performance reviews with HRMS and ERP integrations. Built for enterprise and industrial workforces.
Industry Solutions	Industrial Workforce Training — Manufacturing & EHS Y&Now	Y&Now delivers sector-specific training for industrial workforces — CNC, welding, EHS, quality — with AR/VR simulation, NSDC co-badging, and traceable competency outcomes.
Defence	Veteran Transition & Defence Upskilling Programmes Y&Now	Y&Now supports veteran resettlement and in-service upskilling — preparing armed forces personnel for civilian roles through structured, industry-aligned programmes.
School Solutions	School Workforce & Vocational Capability Programmes Y&Now	Y&Now delivers NSQF-aligned vocational and applied skills programmes for schools — preparing students for real workplace entry and industry readiness.
About Us	About Y&Now EdTech & Workforce Capability, Bhopal	Y&Now is the future-skills EdTech division of BroadArks Technology, ISO 9001:2015 certified, delivering workforce capability for enterprises, government, and communities across India.
FAQ	Y&Now FAQ — Workforce Training, Platform & CSR Programmes	Answers to common questions about Y&Now's corporate training, CSR programmes, capability platform, HRMS integrations, and getting started as an enterprise client.

4.3 Schema Markup Priorities

Page	Schema type(s)	Why it matters
All pages	Organization + BreadcrumbList	Tells Google: company name, URL, contact, address, parent organisation
Homepage	Organization + SiteLinksSearchBox	Enables search box directly in Google results for branded searches
Solution pages	FAQPage	Enables FAQ-rich results — the most visible SERP enhancement for B2B queries
Case studies	Article + Review	Shows publication date, client, and review rating in search snippets
Career pages	JobPosting	Enables free Google Jobs listings — significant recruitment visibility
Platform page	SoftwareApplication	Signals this is a software product — improves category classification
About/Leadership	Person	Builds entity authority for each named team member
Contact Us	LocalBusiness	Shows address, phone, and opening hours in local search

Organisation Schema — required fields

```
Add this to every page via JSON-LD in the <head>:{ "@context": "https://schema.org", "@type": "Organization",
"name": "Y&Now", "legalName": "BroadArks Technology Pvt. Ltd.", "url": "https://yandnow.com", "email":
"info@broadarks.com", "telephone": "+917553553372", "address": { "@type": "PostalAddress",
"streetAddress": "Sagar Premium Tower, Phase I, Block C-1, CP-02, JK Hospital Road, Kolar", "addressLocality":
"Bhopal", "addressRegion": "Madhya Pradesh", "postalCode": "462042", "addressCountry": "IN" },
"parentOrganization": { "@type": "Organization", "name": "BroadArks Technology Pvt. Ltd." }}
```

4.4 Pages to Noindex

/tag/*	Tag archive pages — thin content, no SEO value
/author/*	Author archive pages — thin content
/?s=* (search results)	WordPress search results — never indexable
/gallery/	Evaluate — if thin content, noindex or fold into About Us
2020 blog posts	Archive (set to draft) or refresh with current content before re-indexing

4.5 Core Web Vitals Targets

Metric	Target	Priority fix for Y&Now
LCP (load speed)	≤ 2.5 seconds	Client logo marquee (heavy) — optimise image sizes. Hero images — convert to WebP.
INP (responsiveness)	≤ 200ms	Elementor scripts — audit and defer non-critical JS. Carousel scripts — load conditionally.
CLS (layout stability)	≤ 0.1	All images need explicit width and height attributes. Logo marquee — fix dimensions.

Quick performance wins

- Convert all JPEG logo images in the marquee to WebP — reduces marquee load time significantly
- Add loading='lazy' to all below-fold images — especially the audience section images
- Elementor (confirmed in site meta) loads significant CSS/JS globally — conditionally enqueue only on pages that need each component
- Check: pagespeed.insights.google.com for current scores

4.6 AEO — AI Search Visibility

What is AEO and why it matters for Y&Now

When an enterprise L&D head or CSR manager asks ChatGPT 'who are the best corporate workforce training companies in India?' — Y&Now should appear. This currently cannot happen because the site has no FAQ structure, no schema markup, and no answer-first content format.

AEO requirements

- FAQ section on every major page (minimum 5 questions — see Section 3 per page)
- FAQ schema markup (FAQPage JSON-LD) on every FAQ section
- Answer-first writing on all pages — every section opens with the direct answer, not context-setting

- llms.txt file at yandnow.com/llms.txt — helps AI crawlers find key pages
- robots.txt must include: User-agent: OAI-SearchBot / Allow: / — this allows ChatGPT to crawl the site

llms.txt — create this file at yandnow.com/llms.txt

```
# Y&Now> Y&Now is the future-skills EdTech division of BroadArks Technology Pvt. Ltd., delivering workforce capability programmes and a digital platform for enterprises, CSR sponsors, government bodies, defence, and schools across India.## Key pages- [About Y&Now](https://yandnow.com/about-us)- [Corporate Solutions](https://yandnow.com/corporate)- [CSR Programmes](https://yandnow.com/csr-programs)- [Our Platform](https://yandnow.com/our-platform)- [Industry Solutions](https://yandnow.com/industry-solutions)- [Case Studies](https://yandnow.com/case-studies)- [Contact](https://yandnow.com/contact-us)## Company- Legal: BroadArks Technology Pvt. Ltd.- Email: info@broadarks.com | Phone: +91 75535 53372- Location: Bhopal, Madhya Pradesh, India- Certification: ISO 9001:2015
```

4.7 Internal Linking Rules

Every page must link to a minimum of 3 other pages on the site, using descriptive anchor text. Never 'Know More', 'Click Here', or 'Learn More'.

From page	Link to	Anchor text to use
Homepage	Corporate	'Explore corporate workforce solutions'
Homepage	CSR Programs	'Partner on a CSR programme'
Homepage	Our Platform	'See the Y&Now platform'
Corporate	Our Platform	'Manage learning with the Y&Now platform'
Corporate	Case Studies (Tata)	'See how Tata transformed workforce productivity'
CSR Programs	Corporate	'Also available for enterprise workforce training'
Industry Solutions	Our Platform	'Track competency with the Y&Now platform'
Industry Solutions	Case Studies	'See manufacturing training outcomes'
Any solution page	Contact Us	'Talk to the Y&Now team'
Platform page	Corporate	'See how enterprises use the platform'
Case study	Relevant solution page	'Explore similar programmes for [sector]'
About Us	Our Platform	'See our capability platform'
FAQ	Contact Us	'Contact us at info@broadarks.com'

4.8 Backlink Strategy — 90-Day Plan

Timeline	Action	Expected outcome
Week 1	Update NSDC / Skill India partner profile with yandnow.com URL	Government backlink — high trust
Week 1	Ask CRISP, MPIHTTS Bhopal, SGSU, CVRU to link from their partner pages	3–4 institutional backlinks
Week 2	Request Castrol, BPCL, Jaquar to mention Y&Now in their vendor/partner pages	3 high-authority enterprise backlinks

Week 2	Submit to TrainingIndustry.com vendor directory	Industry directory backlink
Week 3	Publish one case study (Tata or JSW) as standalone downloadable PDF report	Natural link target for HR media
Month 2	Write guest article for People Matters (peplemattersglobal.com) or ETHRWorld	1 media backlink + brand exposure
Month 2	Issue press release on a programme milestone — share via PR distribution	Media pickup — local/national
Month 3	Track in Google Search Console → Links → Top linking sites	Measure what's working, double down

SECTION 5 — EDITORIAL STYLE GUIDE

5.1 The Positioning Statement

Every page on yandnow.com must connect to this: Y&Now builds workforce capability that shows up in performance — through industry-aligned programmes, outcome-driven assessment, and a unified digital platform trusted by 3,800+ organisations across India.

5.2 The Seven Writing Rules

Rule 1 — Lead with outcomes, not activities

✗ Don't write	We provide comprehensive workforce training programmes covering a wide range of topics.
✓ Write instead	BPCL reported faster service turnaround and reduced customer complaints following Y&Now's digital POS and customer engagement training across retail outlets.

Rule 2 — Every claim needs evidence or a placeholder

✗ Don't write	We deliver excellent outcomes across the organisations we work with.
✓ Write instead	Castrol India reported improved conversion rates and dealer engagement following Y&Now's sales capability programme. [INSERT: specific percentage — Account team]
✗ Don't do	Leave impact counters showing '0 K+' or '0%' on the live site.
✓ Do instead	Remove counters entirely until verified metrics are ready. A placeholder zero is worse than no number.

Rule 3 — One audience per page

Enterprise L&D buyers and individual learners need completely different information. CSR managers and corporate training heads require different evidence. Each page is written for one primary audience. The corporate page does not mention individual learners. The CSR page does not mention corporate L&D.

Rule 4 — Never write about things that don't exist yet

✗ Currently live (wrong)	All 6 Talent Management Suite steps show identical copy. Data Security FAQ has scrambled answers. Counters show zero. 'Acme Plant' appears as a case snippet client.
✓ Rule	If a feature isn't ready to describe: use a placeholder. If a metric isn't verified: remove until it is. If a client name isn't approved: anonymise. If copy isn't written: leave blank — never duplicate or invent.

Rule 5 — Use sector-correct technical language

Manufacturing	CNC, SMAW/GTAW/GMAW, TPM, FPY, EHS, RCA, NDT, SMED, WPS
Corporate L&D	OKRs, PMS, HRMS, LMS, xAPI/SCORM, SSO/SAML, time-to-competence, L&D ROI

CSR	Schedule VII, SROI, livelihood linkage, beneficiary mobilisation, end-line assessment
Platform/Tech	REST APIs, SCIM provisioning, iPaaS connectors, SFTP, SAML/OIDC, data residency
Defence	veteran transition, civilian pathway, resettlement programme, upskilling in-service

Rule 6 — Short sentences. One idea per sentence.

 Don't write	Y&Now, which is the future-skills EdTech division of BroadArks Technology and has been working with organisations across India for several years, provides a wide range of industry-aligned capability programmes and also operates a proprietary digital platform that includes LMS, assessment, and performance management modules, all of which integrate seamlessly with existing HRMS and ERP systems.
 Write instead	Y&Now is the future-skills EdTech division of BroadArks Technology. We deliver industry-aligned capability programmes across corporate, CSR, defence, and school segments. Our platform combines LMS, assessment, and OKR-based performance management — integrating with existing HRMS and ERP systems.

Rule 7 — Every page ends with a specific CTA

Corporate	Design a Corporate Programme → /contact-us?type=corporate
CSR Programs	Partner on a CSR Programme → /contact-us?type=csr
Our Platform	Request a Platform Demo → /contact-us?type=platform
Industry Solutions	Request a Sector Pilot → /contact-us?type=industry
Defence	Explore Veteran Transition Programmes → /contact-us?type=defence
Schools	Enquire About School Programmes → /contact-us?type=schools
Case Studies	Explore a programme for your organisation → /contact-us
FAQ	Contact us at info@broadarks.com → mailto:info@broadarks.com

5.3 Tone Guide

What Y&Now sounds like	Technically credible. Outcome-focused. Direct. Professional without being cold.
What it does NOT sound like	Motivational speaker / startup pitch / government brochure / charity appeal / generic training vendor
Corporate section	Technical, outcome-led. Use L&D, OKR, HRMS terminology. Speak to business ROI.
CSR section	Structured, compliance-aware. Reference Schedule VII. Show monitoring methodology.
Platform section	Product-precise. Technical integrations, security standards, specific feature names.
Industries section	Sector-specific. Use the right terminology for each industry. Reference simulations.
Defence section	Respectful, structured. Acknowledge the transition challenge without being patronising.

Schools section	Educational, clear. Focus on student outcomes and curriculum alignment.
Learners section	Plain English. Most jargon-free section on the site. Job-readiness, timeline, cost.
About Us	Factual and credible. Company history, ISO certification, team credentials.
Case Studies	Narrative but specific. Lead with the outcome, then explain how it was achieved.

5.4 Word Rules

Never use these words on yandnow.com

Word / phrase	Why not	Use instead
'Empowering Minds'	Generic EdTech cliché — currently the homepage meta. No B2B buyer searches this.	State what you deliver and to whom
'Transforming Futures'	Unverifiable. Every EdTech company says this.	Name the specific transformation with a client reference
'World-class'	Unprovable without citation	Name the ISO certification or client name
'Cutting-edge'	Overused	Name the specific technology (AR/VR, SCORM/xAPI, REST APIs)
'Holistic'	Vague	List the actual components
'End-to-end solutions'	Overused B2B cliché	Describe the specific start and end points of delivery
'Know More' (CTA)	Non-descriptive — widely used on live site	'Explore corporate training outcomes' / 'See the platform' etc.
'Click Here' (CTA)	Non-descriptive	Describe the action and destination
'Passionate team'	Generic	'Experienced team with [X] years in [domain]'
'Innovative'	Unless cited	Describe the specific innovation (AR/VR lab, AI-based assessment, etc.)
'Value-add'	Jargon	Describe what specifically is added
'Synergies'	Meaningless	Delete entirely
'Leverage'	Jargon	'Use', 'apply', 'deploy'

5.5 Placeholder Format

When data is missing, ALWAYS use this exact format: [INSERT: description of what's needed — team responsible] Examples for this site: • [INSERT: corporate partnerships count — M&E/Business team] • [INSERT: learners trained annually — M&E team] • [INSERT: ISO 9001:2015 certificate number and validity — Legal/Compliance] • [INSERT: confirmed CSR client testimonial to replace Peter Watson placeholder — BD team] • [INSERT: real client name for Acme Plant case snippet — Account team] • [INSERT: Data Security FAQ answer for 'Where is user data stored?' — Tech/Infrastructure] NEVER use: 'TBD' / 'XX' / 'Coming soon' / '0 K+' / 'Acme Plant' / 'Peter Watson' on live pages.

5.6 Pre-Publish Checklist

Run this checklist on every page before it goes live:

- ☐ H1 present and matches the commercial search intent of this page
- ☐ Opening paragraph (50–80 words) answers 'what does this page offer and to whom?'
- ☐ Every claim has evidence, a client name, or a correctly formatted placeholder
- ☐ No lorem ipsum, '0 K+', 'Acme Plant', 'Peter Watson', or identical repeated copy
- ☐ FAQ section present with minimum 5 real questions and distinct answers
- ☐ Primary CTA present, specific, and correctly linked
- ☐ 3+ internal links with descriptive anchor text — not 'Know More'
- ☐ All images have descriptive alt text
- ☐ Meta title (50–60 chars) includes primary keyword
- ☐ Meta description (150–160 chars) includes keyword + proof + CTA
- ☐ Mobile view tested
- ☐ Page owner has reviewed and approved

SECTION 6 — CONTENT GOVERNANCE

6.1 Page Ownership

Homepage	Marketing lead
Corporate	Business Development / Corporate team
CSR Programs + child pages	CSR Programme head
Industry Solutions	Programme Manager per sector
Our Platform	Product / Tech team
Defence Programs	Defence programme lead
School Solutions	Schools lead
Micro-Entrepreneurship	Livelihood/CSR team
Case Studies	Marketing / Account team
About Us + sub-pages	Leadership / HR
Career (/jobs)	HR
Contact Us	Admin
FAQ (new page)	Comms / Marketing
Blog / Insights	Marketing — per publishing schedule

6.2 Review Schedule

Impact metrics and counters	Monthly — or remove until verified
Case studies	After each engagement completion — keep client-approved
Solution / programme pages	Every 3 months
Homepage	Quarterly
About Us / Leadership	When team changes
FAQ page	Monthly — add new questions as they come in
Blog / Insights	Per publishing schedule — minimum 1 post per month
Job listings	Immediately when roles open or close
Footer and legal	When details change
ISO certification claim	On renewal — [INSERT: certificate validity date — Legal]

6.3 Top 10 Fixes — Priority Order

Priority	Fix	Timeline
1	Fix all 6 Talent Management Suite steps — currently identical copy	Day 1
2	Rewrite all 8 Data Security FAQ answers — currently scrambled	Day 1
3	Remove or replace impact counters showing 0 K+, 0%, 0+	Day 1

● 4	Fix truncated TATA case study on /our-platform	Day 1
● 5	Rewrite 'Why Corporates Partner With Us' section — wrong content on corporate page	Week 1
● 6	Verify/replace Peter Watson CSR testimonial — confirm if real or placeholder	Week 1
● 7	Replace 'Acme Plant' in industry case snippet with real or anonymised reference	Week 1
● 8	Fix homepage H1 and meta description — no commercial keyword currently	Week 2
● 9	Promote About Us to primary navigation	Week 2
● 10	Create /resources/faq page — critical for AI search visibility	Phase 2
