

Y&Now Final Copy Deck

Overview

This website is written for Gen Z and B2B at the same time. The tone is simple, confident, and easy to follow. The site is also a closed loop: the visitor discovers a need, sees the solution, reviews proof, and gets a clear next step on every page. The goal is to make the site feel pitchable and practical for stakeholders, while still being friendly and clear for younger users, without feeling still or drowned in corporate jargon. Each page should move the visitor toward a next step, so the site feels connected rather than disengaged.

Closed-loop structure

- Home introduces the need and routes people.
- Service pages explain the solution by audience.
- Platform shows how delivery works.
- Case Studies prove the value.
- About Us builds trust and credibility.
- Gallery, Blog, Careers, and Contact keep the loop active and human.

Tone direction

- Simple, direct, and pitchable.
- Friendly enough for Gen Z.
- Credible enough for B2B.
- Practical enough for Gen X.
- Always outcome-led, never heavy on jargon.

DOCUMENT NOTE:

Updated website copy with incorporated stakeholder comments, structured in the approved stakeholder review format.

HOME

Discover the Right Route to Grow

We help people and organisations build practical skills, grow with confidence, and stay ready for what comes next.

Find Your Route

- Corporate and employers - Build stronger teams through leadership, operations, customer experience, digital adoption, and role-specific learning.
- Corporate Social Responsibility partners - Deliver structured skill development, livelihood, and community programmes with clear delivery plans and reporting.
- Government and institutions - Support workforce readiness, employability, and institutional learning programmes.
- Industry teams - Build technical, safety, quality, and operational skills for specific work environments.
- Defence partners - Support veteran transition and in-service upskilling.
- Schools - Build practical and vocational skills for workplace readiness.
- Learners - Explore relevant learning and upskilling opportunities.

Learning That Leads Somewhere

Learning matters when people can use it. We connect assessment, learning, application, and performance so programmes focus on what people need to do - not simply what they need to complete.

The Y&Now Journey

- Assess - Understand the role, audience, and current skill level.
- Learn - Build relevant knowledge and practical skills.
- Apply - Put learning into practice.
- Perform - Connect learning with workplace goals.
- Improve - Use evidence and feedback to strengthen the next cycle.

Why Choose Us

- Industry-aligned programmes.
- Role-based assessment.
- Practical and blended learning.
- Learning designed around workplace requirements.
- Digital learning and performance tools.

Experience You Can Review

We work across enterprise, institutional, and workforce-learning contexts. (here will be the client logos and names.)

Proof in Numbers

- 56.35% - India's reported employability rate in the India Skills Report 2026.

- 57/100 - Job-readiness confidence reported among students in the NIIT India Skills Gap Report 2026.
- 0.97% - Share of 14-18-year-olds reported to have received institutional skilling in the cited Economic Survey coverage.

Questions About Y&Now

What does Y&Now do?

We design practical learning programmes for organisations and learners.

Who is Y&Now for?

We work with corporate teams, Corporate Social Responsibility partners, industry groups, defence Stakeholders, schools, and individual learners.

How does Y&Now work?

We follow a simple loop: assess, learn, apply, perform, improve, and return.

Does Y&Now offer a platform?

Yes. The platform connects digital learning, assessments, and performance reviews in one system.

Ready to Take the Next Step?

Tell us what you are trying to improve, who the programme is for, and what you need the learning to achieve. We will help you find the right programme, learning route, or platform.

BUTTON: Talk to Y&Now

Stakeholder Review

- Confirm whether the 3,800+ organisation figure is current and approved for publication.
- Confirm primary homepage audience and learner route.
- Verify all client and partner names, organisation count, statistics, and platform claims.
- Confirm approved proof items for the homepage.

ABOUT Y&NOW

Practical Learning with a Clear Purpose

We help people and organisations build useful skills, grow with confidence, and stay ready for what comes next.

Who We Are

Y&Now is a learning brand focused on practical outcomes. We design programmes that help learners become more job-ready, help teams perform better, and help organisations build capability that lasts.

Our Mission

To make practical learning easier to access, easier to apply, and more useful for real work and real life.

Our Vision

A future where more people can turn learning into opportunity, confidence, and better work.

What We Believe

- Learning should feel useful.
- Skills should help people move forward.
- Good training should lead to real change.
- People learn best when the path is clear.
- Confidence grows when learning connects to the real world.

Why Our Work Matters

The gap between learning and doing is still too wide. We help people build relevant skills, improve performance, and move toward better opportunities with more confidence.

Credentials

Y&Now is presented as a registered trademark associated with BroadArks Technology Private Limited. Existing materials also reference ISO 9001:2015 certification.

Meet the Team

- Mr.Pankaj Dutta - Founder and Chief Executive Officer

Mr.Pankaj brings more than 17 years of experience across media, business, and strategy. He believes skilling is essential for employability and long-term growth.

- Dr. Kaveri Dutta - Co-Founder and Chief Learning Officer

Dr. Kaveri brings more than 15 years of experience in learning and development, curriculum design, and learner engagement.

- Mr. Tarun Abbhani - Chief Financial Officer

Mr. Tarun is a Chartered Accountant with more than 14 years of experience in finance leadership and operational strategy.

- Ms. Souri Mukherjee - Head, Financial Planning and Analysis and Information Technology and Cloud-Based Solutions

Ms. Souri brings 24 years of experience across consumer and brand environments, with an analytical and problem-solving approach.

Advisers

- Mr. Pradeep Narayanan

Pradeep brings more than 26 years of experience in the development sector across health, education, child protection, and gender.

- Mr. Brajendra Gupta

Brajendra is an entrepreneur who believes skill development is essential for broader opportunity.

Stakeholder Review

- Confirm mission, vision, team, adviser, BroadArks relationship, trademark, and ISO wording.
- Provide verified trademark and certification details, including scope, issuing body, and validity, before publishing.

CORPORATE TRAINING

Learning That Helps Teams Perform Better

We help organisations strengthen workforce performance through practical learning across leadership, operations, customer experience, digital adoption, and role-specific skills.

What We Support

- Leadership and people development.
- Operational and role-based training.
- Customer and sales training.
- Digital adoption and workplace skills.
- Role-based assessment and skill-gap mapping.
- Performance-linked learning.

Start With the Work

The right learning programme starts with what people need to do in their roles. We design learning around job requirements, current skill gaps, business priorities, and the workplace outcome the organisation wants to improve.

How Learning Is Delivered

We support instructor-led, virtual, blended, digital, and self-paced learning. Depending on the role and programme, we use microlearning, scenario-based activities, practical exercises, or simulation where relevant.

From Assessment to Performance

Role-based assessment identifies learning gaps. Targeted learning addresses those gaps. Workplace tasks, manager feedback, and performance measures help show whether learning is being applied.

Best For

- Individuals building a specific professional skill.
- Teams improving performance in a shared area.
- Business units addressing a role or capability gap.
- Enterprises looking for scalable workforce learning.

Corporate Work in Practice

- Tata Group - Behavioural skills and productivity learning across diverse teams.

- JSW - Digital transformation and Supervisory Control and Data Acquisition literacy for plant operations.
- Castrol India - Sales-force learning across dealer networks.
- Bharat Petroleum Corporation Limited - Digital point-of-sale adoption and customer experience.
- Jaquar - Showroom customer engagement and brand excellence.

Ready to Discuss Your Workforce Need?

Tell us the roles, workforce group, or business priority you are working on. We can discuss the learning approach that fits your requirement.

BUTTON: Design a Corporate Programme

Stakeholder Review

- Confirm active services, delivery formats, approved client examples, outcomes, and technology claims.
- Remove any legacy case study not approved for the new site.

CORPORATE SOCIAL RESPONSIBILITY PROGRAMMES

Practical Programmes for Communities and Livelihoods

We work with corporations, foundations, and institutions to design and deliver organised skill development, livelihood, and community programmes.

What We Support

- Skill development and employability.
- Livelihood and entrepreneurship.
- Community development.
- Veteran transition.
- Participant assessment and tracking.
- Employment or livelihood linkage where included in the agreed programme.

From Community Need to Delivery

A strong programme starts with a defined community, a clear need, and an intended outcome. We support needs assessment, programme design, participant mobilisation, learning delivery, assessment, monitoring, and reporting according to the agreed scope.

Reporting That Shows Progress

- Participation records.
- Beneficiary information.
- Attendance.
- Assessment results.
- Progress updates.

- Photographic evidence.
- Outcome reporting where included in the agreed programme.

Why This Matters for Communities

Community programmes need more than attendance records. They need relevance, participation, follow-through, and a clear view of what changed.

Best For

- Corporate Social Responsibility teams.
- Foundations.
- Corporate sponsors.
- Institutions planning skilling and livelihood programmes.

One Supporting Data Point

Build a Programme Around Your Priorities

Tell us the community, geography, programme objective, and intended outcome. We can help shape the right skill or livelihood route.

BUTTON: Partner on a CSR Programme

Stakeholder Review

- Confirm active Corporate Social Responsibility areas, programme scope, geographies, and verified outcomes.
- Verify the source and approve the 4.2% formal vocational or technical training figure before publication.
- Approve all legal, statutory, and reporting wording.

INDUSTRY SOLUTIONS

Learning Built Around the Work

We design workforce learning around the technical, safety, quality, and operational requirements of specific industries and roles.

What We Support

- Technical and role-based skills.
- Environment, Health and Safety training.
- Quality and process improvement.
- Operational excellence.
- Role-based assessment and competency tracking.
- Digital and simulation-based learning where applicable.

Built Around the Workplace

We study the role, workflow, tools, and conditions people face on the job. We then build learning around what people need to do, not just what they need to know.

Manufacturing and Precision Engineering

Our team supports workforce learning for manufacturing and precision-engineering environments, including technical roles, plant operations, safety, quality, and relevant digital or process-related skills.

From Learning to Workplace Readiness

Programmes connect role assessment, learning, and practical application. Participants are assessed against role requirements, trained against identified gaps, and supported through workplace activities where included in the programme.

Where This Works

Our materials reference workforce programmes across banking and financial services, construction, healthcare, information technology and information technology-enabled services, and retail, alongside technical and soft-skills training.

Best For

- Plant managers.
- Environment, Health and Safety leaders.
- Manufacturing human resources teams.
- Industrial leaders who need role-based training that fits the job.

One Supporting Data Point

- Digital, data, and artificial intelligence-related capabilities rank among the most important future skills in recent India skills-gap reporting.

BUTTON: Discuss an Industry Requirement

Stakeholder Review

- Confirm active industries, approved delivery methods, and all digital or simulation claims.
- Provide one approved case study and verified outcome.

DEFENCE PROGRAMMES

Experience That Moves Forward

We support veteran transition and in-service upskilling through learning that connects existing experience with civilian workplace requirements.

Programme Focus

- Civilian career readiness.
- Role-aligned upskilling.
- Employability skills.
- Industry exposure.
- Employer linkage where included in the programme.

Make Existing Experience Work in a New Context

Veterans bring experience, discipline, leadership, and role-specific strengths. A systematic transition programme helps connect those strengths with civilian job requirements, workplace language, and new skill areas.

A Practical Transition Route

We begin by understanding existing experience and skills. We identify the target role, map the gaps, and focus learning on the capabilities that matter. Where employer linkage is part of the programme, participants may also be supported towards relevant employment pathways.

For Defence and Institutional Partners

Our team works with defence, institutional, and employer partners on programmes designed around the transition, reskilling, or workforce requirements identified at the start of the engagement.

Best For

- Defence establishments.
- Public sector human resources teams.
- Institutional partners.
- Veterans preparing for their next career step.

BUTTON: Explore Defence Programmes

Stakeholder Review

- Confirm active programmes, approved partners, scope, outcomes, names, logos, and employer linkage.
- Remove all old website case studies that are not approved for the new site.

SCHOOL SOLUTIONS

Practical Skills for What Comes Next

We help schools build applied skills that prepare students for further education, workplace entry, and changing industry needs.

What We Support

- Vocational and applied skills.
- Industry exposure.
- Teacher and facilitator support.
- Assessment and certification where applicable.

Learning Beyond the Classroom

Students benefit when they can connect what they learn with how skills are used in real settings. We support programmes that combine classroom learning with practical application, assessment, and exposure to workplace requirements.

Preparing Students for the Next Step

We help students understand and apply practical skills alongside academic learning. Programme design adapts to the age group, learning context, and intended pathway.

One Supporting Data Point

- 0.97% - Share of 14-18-year-olds reported to have received institutional skilling in the cited Economic Survey coverage.

Best For

- School principals.
- Education leaders.
- Institutional partners looking for applied learning programmes.

BUTTON: Enquire About School Programmes

Stakeholder Review

- Confirm age groups, formats, certification wording, school partnerships, and industry-exposure claims.
- Verify National Skills Qualifications Framework, board, accreditation, and certification references before publishing.

MICRO-ENTREPRENEURSHIP

Skills for Livelihoods and Small Businesses

We support practical learning for people developing livelihood opportunities, small-business skills, and pathways to self-employment where included in the agreed programme.

What the Learning Covers

- Entrepreneurship and livelihood skills.
- Practical business skills.
- Financial and workplace basics.
- Digital skills for work and enterprise.
- Customer and market-facing skills.
- Assessment and methodical learning.

Learning That Can Be Put to Work

Entrepreneurship learning helps participants understand how an opportunity works in practice. Programmes focus on planning, customer needs, basic business operations, digital tools, and everyday business decisions.

From Learning to Livelihood

Where included in the programme, learning connects with practical activities that help participants apply business, digital, and customer-facing skills in a real setting.

Best For

- Self-Help Group facilitators.
- Livelihood programme managers.
- Partners working on income generation or market linkage.

BUTTON: Discuss a Livelihood Programme

Stakeholder Review

- Confirm whether this is a current standalone offering or part of Corporate Social Responsibility programmes.
- Confirm target groups, examples, market linkage, and Self-Help Group support.

FOR LEARNERS

Learn Skills. Build Your Next Step.

We give learners access to practical, industry-relevant learning for entering the workforce, changing roles, building new skills, or exploring a new direction.

Choose Learning Around Your Goal

Whether you are entering the workforce, changing roles, or building a new skill, start with what you want to achieve. Courses combine highly organised learning, practical application, and assessment depending on the programme.

What You Can Expect

- Practical, industry-relevant learning.
- Assessment and feedback where needed.
- Digital and blended learning where available.
- Placement or employer connections where included in the agreed programme.

Best For

- Students and early-career learners.
- Professionals building a new skill.
- People changing roles or industries.
- Learners looking for practical, industry-relevant pathways.

One Supporting Data Point

- 57/100 - Job-readiness confidence reported among students in the NIIT India Skills Gap Report 2026.

Find Your Course

Explore the current course catalogue and choose the learning route that fits your next step.

BUTTON: Find a Course

BUTTON: Explore Learning Programmes

Stakeholder Review

- Provide current course catalogue, eligibility, duration, fees, formats, and enrolment journey.
- Verify certification, awarding-body, placement, and employer-linkage claims.

Y&NOW PLATFORM

One System for Learning, Assessment, and Performance

The Y&Now platform helps organisations connect digital learning, role-based assessment, and performance in one place.

Assess

Role-based competency assessments map current skills against job requirements. Outputs may include individual heatmaps and gap reports where enabled in the relevant product environment.

Learn

Personalised learning paths can combine digital modules, Shareable Content Object Reference Model content, Experience API content, microlearning, instructor-led learning, and simulation where relevant to the programme.

Perform

Objective and key results tracking, supervisor check-ins, performance reviews, and relevant operational signals help organisations understand whether learning is translating into workplace performance.

Connect With Existing Systems

The platform may connect with existing Human Resources Management Systems and Enterprise Resource Planning environments through agreed integrations.

Data and Security

Information on hosting, access controls, data ownership, retention, and security is provided for enterprise deployments.

Best For

- Learning and Development teams.
- Human resources teams.
- Information technology teams.
- Enterprise buyers evaluating learning and performance systems.

Request a Platform Demo

Tell us what your current environment looks like and what you need the system to do.

BUTTON: Request a Platform Demo

Stakeholder Review

- Verify every live platform feature and integration.
- Confirm the current integration list before publication.
- Provide approved security, hosting, data ownership, retention, and compliance wording.
- Do not publish Stakeholder planned features as live functionality.

CASE STUDIES

Real Work. Real Learning. Real Outcomes.

Our work is best understood through real organisations, roles, and learning requirements. Each case study should show the need, the programme delivered, and the outcome.

- Tata Group - Behavioural skills and productivity learning across diverse teams.
- JSW Energy - Digital transformation and Supervisory Control and Data Acquisition literacy for plant operations.
- Castrol India - Sales-force learning across dealer networks.
- Bharat Petroleum Corporation Limited - Digital point-of-sale adoption and customer experience.
- Jaquar - Showroom customer engagement and brand excellence.

Case Study Format

- Client.
- Need.
- Programme.
- Delivery approach.
- Verified outcome.
- Testimonial, if available.

More Work

Additional organisations, names, logos, testimonials, and outcomes can be added where available.

BUTTON: Explore Case Studies

BUTTON: Talk to Y&Now

Stakeholder Review

- Confirm the final approved case-study list.
- Confirm names, logos, outcomes, testimonials, and metrics.
- Remove every unapproved or legacy reference.

BLOG

Ideas, Updates, and Useful Thinking

We share practical content for Learning and Development leaders, human resources teams, employers, and learners who want to stay current.

Topics to Publish

- How role-based assessment improves workforce learning.
- What makes Corporate Social Responsibility skilling programmes effective.
- How to design learning for plant operations.
- Why sales training needs field practice, not just theory.
- How digital adoption changes frontline performance.

- What learners need to move from training to employment.
- How to build a practical transition pathway for veterans.
- Why customer experience training should include real scenarios.
- How to measure training impact beyond attendance.
- What schools can do to make learning more applied.

Writing Style

Posts should be short, useful, and practical. Each post should answer a real question or explain a real challenge in plain language.

Stakeholder Review

- Confirm categories, priority topics, voice, and older posts that should be archived or removed.

CAREERS

Build Work That Helps People Grow

Join us to help create programmes that strengthen employability, workforce learning, and community development.

Why Work With Us

- Work on programmes with real-world use.
- Help shape learning that matters.
- Work across corporate, community, industrial, and learner contexts.
- Be part of a team focused on practical outcomes.

What Every Job Post Includes

- Role title.
- Team or function.
- Location.
- About the role.
- Key responsibilities.
- Required skills.
- Preferred experience.
- Application deadline.

BUTTON: View Open Roles

BUTTON: Apply Now

Stakeholder Review

- Confirm current roles, application method, contact email, and employer-branding language.

PRIVACY POLICY

How We Handle Your Information

We respect the privacy of visitors and users. This page explains what information may be collected, how it may be used, and how it is protected.

Information We Collect

We may collect information you share through forms, enquiries, newsletter sign-ups, or other site interactions. We may also collect basic usage information that helps us understand how the website is used.

How We Use Information

We use information to respond to enquiries, improve the website, support communications, and manage services related to learning, programmes, or partnerships.

Sharing and Disclosure

We do not sell personal information. We may share information with trusted service providers only when needed to operate the website or support our services.

Cookies and Analytics

The website may use cookies or similar tools to improve user experience, understand traffic, and support performance tracking.

Data Security

We take reasonable steps to protect information and reduce the risk of unauthorised access, misuse, or disclosure.

Your Choices

You may choose not to provide certain information, although this may affect how some features or responses work.

Contact

If you have questions about privacy or data handling, you can contact us through the website contact route.
