Y&Now: Workforce Capability Solutions Trusted by 3,800+ Organisations Across India

OPENING PARAGRAPH (H2 SUBHEADING BELOW H1)

Y&Now is the future-skills EdTech division of BroadArks Technology Pvt. Ltd. We design, deliver, and measure industry-aligned capability programmes for enterprises, CSR sponsors, government bodies, defence establishments, schools, and individual learners. Our proprietary platform integrates learning, role-based assessment, and OKR-aligned performance management — connecting directly to your existing HRMS and ERP systems.

SECTION 1 — SOCIAL PROOF BAR (BELOW HERO)

Trusted by India's leading organisations across manufacturing, energy, retail, and financial services.

- [INSERT: client logo marquee — retain from live site: Tata Group · JSW · Castrol India · BPCL · Jaquar · Indian Army · Indian Oil · Boeing · Reliance Foundation · NSDC]

[INSERT: '3,800+ organisations trust Y&Now' counter — verify current figure with Business team before publishing]

SECTION 2 — WHO WE SERVE (SIX AUDIENCE ROUTE CARDS)

Each card carries a headline, one-line description, and a destination CTA. Copy per card:

Audience	Card headline	Card description + CTA
Corporate	Build a High-Performance Workforce	Industry-aligned L&D programmes that link training to OKRs, reduce time-to-competence, and integrate with your HRMS. → Explore Corporate Solutions
CSR Sponsors	Deliver Measurable CSR Impact	End-to-end skilling and livelihood programmes aligned to Schedule VII of the Companies Act, with independent impact monitoring and transparent reporting. → Partner on a CSR Programme
Industries	Train Industrial Workforces at Scale	Sector-specific training for manufacturing, precision engineering, and regulated environments — with AR/VR simulation, safety protocols, and NSDC/NCVET co-badging. → Request a Sector Pilot

Defence	Support Veteran Transition	Structured post-service resettlement programmes that prepare armed forces personnel for civilian employment. → Explore Veteran Programmes
Schools	Build Industry Readiness Early	NSQF-aligned vocational and applied skills programmes for secondary and senior secondary students, co-designed with industry employers. → Enquire About School Programmes
Learners	Get Job-Ready with Y&Now	Industry-recognised courses in manufacturing, IT, retail, and financial services — with placement support and employer connections. → Find a Course

SECTION 3 — PLATFORM PREVIEW (3-CARD SUMMARY)

Use three side-by-side cards. Each has an icon, a heading, and 2 sentences. Copy below:

Card 1 — ASSESS: 'Identify where your workforce is today. Role-based assessments map current competency against job requirements, delivering individual heatmaps and gap reports your L&D team can act on.'

Card 2 — LEARN: 'Deliver the right learning to the right person. Personalised learning paths draw from SCORM/xAPI modules, AR/VR simulations, and microlearning assets — calibrated to close specific skill gaps.'

Card 3 — PERFORM: 'Measure whether learning translated into performance. OKR tracking, supervisor sign-offs, and operational signals confirm that capability built in the classroom is showing up on the job.'

→ See the Y&Now Platform in Detail → [/our-platform](#)

SECTION 4 — 5-STEP FRAMEWORK (RETAIN EXISTING VISUAL, REWRITE LABELS/TEXT)

Step	Label	Description (1 sentence per step)
01	Assess	We map current competency across roles, functions, and levels to identify the exact gaps between where your workforce is and where it needs to be.
02	Train	Personalised learning paths — combining instructor-led training, digital modules, AR/VR simulation, and microlearning — close identified skill gaps at individual and team level.
03	Apply	On-the-job tasks, manager check-ins, and live scenario assessments verify that learning is transferring from the training environment to the workplace.
04	Perform	OKR tracking and performance signals measure whether capability improvements are showing up in actual job performance and operational KPIs.
05	Improve	Analytics from each cycle inform the next — creating a continuous improvement loop between learning investment, performance data, and workforce planning.

SECTION 5 — CLIENT TESTIMONIALS (RETAIN EXISTING, ADD ONE NEW)

Use existing testimonials from Tata, JSW, Castrol, BPCL, Jaquar. These are already on the live site and confirmed. Retain as-is. Ensure each testimonial shows: client name · designation · company · photo [INSERT: approved client photos]. Remove any unverified testimonials.

SECTION 6 — IMPACT METRICS (CRITICAL FIX)

DO NOT publish until verified metrics are available. Replace the current '0 K+' counters with verified data or remove the section entirely. Placeholder zeros on a live site are worse than no numbers.

[INSERT: Corporate partnerships count — M&E/Business team]

[INSERT: Learners trained annually — M&E team]

[INSERT: Instructors, mentors & facilitators — HR/Operations]

[INSERT: Programme completion rate — M&E team]

SECTION 7 — FAQ (NEW — REQUIRED FOR AEO/AI SEARCH VISIBILITY)

What does Y&Now do?	Y&Now designs and delivers workforce capability programmes for enterprises, CSR sponsors, government bodies, defence establishments, and schools across India. We also operate a proprietary digital platform that integrates learning management, role-based assessment, and OKR-aligned performance review into one system.
Which organisations has Y&Now worked with?	Y&Now has partnered with Tata Group, JSW, Castrol India, BPCL, Jaquar, Indian Army, Indian Oil, Boeing, Reliance Foundation, NSDC, and [INSERT: current total — Business team] organisations across India.
What is the Y&Now platform?	The Y&Now platform connects a Learning Management System (LMS), role-based assessments, and OKR-based Performance Management into a single capability suite. It integrates with existing HRMS and ERP systems including SAP, SuccessFactors, and Darwinbox via REST APIs, SSO/SAML, and SCIM provisioning.
Is Y&Now ISO certified?	Yes. Y&Now operates under BroadArks Technology Pvt. Ltd., which holds ISO 9001:2015 certification. Certificate number: [INSERT — Legal/Compliance]. Validity: [INSERT — Legal/Compliance].
How is Y&Now different from a standard training vendor?	Y&Now links learning to measurable performance outcomes — not just course completion. Our 5-stage framework (Assess, Train, Apply, Perform, Improve) ensures capability translates into on-the-job execution, measured through OKRs, supervisor sign-offs, and operational performance signals.

Build a High-Performance Workforce with Industry-Aligned L&D

OPENING PARAGRAPH

Y&Now partners with enterprise organisations to build workforce proficiency across roles, functions, and levels. Our programmes connect learning directly to operational performance — with outcomes measured through OKRs, supervisor sign-offs, and operational KPIs that your leadership team can track. We work with enterprise clients including Tata Group, JSW, Castrol India, BPCL, and Jaquar.

Programme Categories

Y&Now delivers four categories of corporate capability:

Category	What it covers
Operational Performance	Role-specific behavioural skills, SOPs, quality awareness, and frontline execution standards — the programmes that directly affect on-the-job productivity and reduce operational error rates.
Digital & Workflow Adoption	Technology onboarding, digital POS, ERP/HRMS user capability, and data literacy — ensuring your workforce can work effectively with the systems your organisation depends on.
Leadership & Management	First-line manager effectiveness, team leadership, performance conversation frameworks, and strategic execution for mid-to-senior leadership cohorts.
Customer Excellence	Showroom interaction, service recovery, client communication, dealer engagement, and brand experience programmes for customer-facing roles across retail, financial services, and B2B sectors.

Why Enterprise Organisations Choose Y&Now

REPLACE THE CURRENT LIVE COPY. The existing 'Why Corporates Partner With Us' section describes CSR community impact — not enterprise L&D. Replace it with the following:

Enterprise organisations choose Y&Now because our programmes are built around operational performance signals — not course completion metrics. We embed learning into workflow, measure outcomes through OKRs and supervisor evidence, and integrate directly with existing HRMS and ERP systems. So your L&D investment is visible in business results, not just learning dashboards.

Three things distinguish Y&Now from standard training vendors:

- Performance linkage: every programme maps to a defined performance signal. L&D ROI is measured before the contract closes.
- Platform integration: our capability platform connects with SAP, SuccessFactors, Darwinbox, and other HRMS via REST APIs and SSO — no additional system for your workforce to manage.
- Scale and sector depth: we operate across manufacturing, retail, financial services, energy, and logistics — with sector-specific content libraries, NSDC/NCVET co-badging where applicable, and AR/VR simulation for technical roles.

The 5-Stage Corporate Delivery Model

Assess → Train → Apply → Perform → Improve. See the homepage for the full framework. For corporate engagements, the cycle typically runs across a 12–16 week delivery period with quarterly review touchpoints.

Client Results

INSERT: Verified outcome statements per client. Do not leave zero counters or vague claims. Use the following format:

Tata Group — Behavioural skills transformation across diverse teams. [INSERT: outcome metric and timeframe — Account team]

JSW — Digital transformation and SCADA literacy for plant operations. [INSERT: outcome metric — Account team]

Castrol India — Sales force capability across dealer networks. [INSERT: outcome metric — Account team]

BPCL — Digital POS adoption and customer experience. [INSERT: outcome metric — Account team]

Jaquar — Showroom customer engagement and brand excellence. [INSERT: outcome metric — Account team]

CORPORATE FAQ

What industries does Y&Now cover for corporate training?	Y&Now delivers corporate capability programmes across manufacturing, energy, retail, financial services, FMCG, automotive, and logistics. [INSERT: confirm complete sector list — Programme team]
How does Y&Now measure L&D ROI?	Outcomes are measured through pre- and post-assessment scores, OKR achievement rates, supervisor-validated competency evidence, and operational performance signals such as incident rates, error rates, or conversion rates. Clients receive monthly impact dashboards and quarterly outcome reports.
How does the Y&Now platform integrate with our existing HRMS?	The Y&Now platform connects with SAP, SuccessFactors, Darwinbox, and other HRMS via REST APIs, SSO/SAML, and SCIM provisioning. Our integration team conducts a technical assessment at onboarding to map the connection to your specific system configuration.
How long does a typical corporate programme take?	A standard corporate capability programme — from training needs analysis through delivery and outcome review — runs across 12–16 weeks. Shorter engagements (4–6 weeks) are available for specific skill interventions. Timelines are confirmed at scope definition.
Can Y&Now deliver training at multiple locations simultaneously?	Yes. Y&Now delivers across multiple sites using a combination of in-person facilitators, virtual instructor-led sessions, and self-paced digital content. [INSERT: current multi-site delivery footprint — Operations team]

CSR Skill Development & Livelihood Programmes That Deliver Measurable Impact

OPENING PARAGRAPH

Y&Now is a structured CSR implementation partner for corporations and foundations seeking measurable community impact. We design, deliver, and report on end-to-end skill development, livelihood, and community programmes aligned to Schedule VII of the Companies Act, 2013 — with independent monitoring, transparent fund utilisation reporting, and impact documentation that meets the requirements of corporate compliance teams and government oversight bodies.

What We Deliver

Y&Now manages four programme streams under CSR:

Programme stream	What it involves
Skill Development & Employability	NSDC-aligned vocational training and employability skilling for youth and working-age adults, with employer linkage and placement support. Aligned to Schedule VII item (ii) — Promotion of education.
Veteran Transition	Post-service civilian resettlement programmes for armed forces personnel, combining skills assessment, vocational retraining, and employer connections. Aligned to Schedule VII item (vi) — Training to promote rural sports and nationally recognised sports, and to Schedule VII items covering armed forces veterans.
Livelihood & Entrepreneurship	Vocational skilling, SHG strengthening, market linkage, and micro-enterprise development for women and marginalised communities. Aligned to Schedule VII item (iii) — Promoting gender equality and empowering women.
Community Development	Broader social infrastructure capacity-building, including health awareness, digital literacy, and community governance. Aligned to Schedule VII item (i) — Eradicating hunger, poverty, and malnutrition.

Our CSR Delivery Approach

Every Y&Now CSR programme follows a structured three-stage delivery model:

- Stage 1 — Needs Assessment: Community mapping, baseline surveys, beneficiary identification, and co-creation with the corporate partner to align programme design with both community need and CSR policy objectives.
- Stage 2 — Programme Execution: On-ground delivery by qualified facilitators and sector experts, with standardised quality assurance protocols, attendance tracking, and mid-programme corrective review.
- Stage 3 — Impact Measurement & Reporting: End-line assessments, employment and income verification, beneficiary documentation, and a final impact report in the format required by your corporate compliance and CSR committee.

Impact Data

CRITICAL FIX: Replace current placeholder testimonial attributed to 'Peter Watson, CEO' with a verified CSR client testimonial. [INSERT: confirmed CSR client name, designation, outcome — BD team]. Remove the CEAT logo placeholder until confirmed.

[INSERT: verified CSR metrics — M&E team]

- [INSERT: Total individuals reached through CSR programmes]
- [INSERT: Employment linkage rate — % securing employment or income within 6 months of completing programme]
- [INSERT: Women participation percentage]
- [INSERT: Household income improvement data — % reporting income increase]

CSR FAQ

Which Schedule VII categories do Y&Now's CSR programmes qualify under?	Y&Now's skill development and employability programmes qualify under Schedule VII item (ii) — Promotion of education. Livelihood programmes qualify under item (iii) — Promoting gender equality and empowering women. Community development programmes may qualify under item (i). We recommend confirming the specific head with your legal team before commitment.
How does Y&Now report CSR fund utilisation?	Y&Now provides quarterly utilisation statements, mid-programme progress reports, and a comprehensive final impact report. Documentation includes attendance registers, beneficiary ID verification, photographic evidence, assessment results, and employment/income linkage data. Reports are formatted to meet corporate compliance requirements.
Can Y&Now manage the complete CSR programme lifecycle?	Yes. Y&Now manages the full cycle — from community needs assessment and programme design through on-ground delivery, independent monitoring, and final reporting. Corporate partners can choose full-cycle implementation or engagement at specific stages.
Does Y&Now work with NSDC for CSR skilling programmes?	Y&Now works with NSDC as a training and implementation partner for select programmes. NSDC co-badging of certifications is available for eligible programmes. [INSERT: confirm current NSDC partnership scope — Accreditation team]
What geographies does Y&Now operate in for CSR programmes?	Y&Now currently operates in [INSERT: confirmed geographies — Programme team]. We can expand to new geographies with a minimum 8-week mobilisation lead time.

Y&Now Capability Platform: Assess, Learn, and Track Performance in One System

OPENING PARAGRAPH

Y&Now's capability platform connects digital learning, role-based assessments, and OKR-aligned performance reviews into a single system. It integrates with existing HRMS and ERP platforms via REST APIs, SSO/SAML, and SCIM provisioning — enabling organisations to identify skill gaps, deliver targeted learning, and measure on-the-job performance without requiring your workforce to manage yet another system.

Three Integrated Modules

Assess → Learn → Perform. Three modules. One platform. One data set.

- LMS (Learn): Personalised learning paths, SCORM/xAPI/cmi5 content, AR/VR simulation, mobile-first delivery, offline access, microlearning, blended learning sequences.
- Assessments (Assess): Role-based competency assessments, scenario-based evaluations, compliance audits, technical checks, individual heatmaps, gap reports. Proctored delivery available.
- Performance Management (Perform): OKR setting and tracking, supervisor check-ins, 360-degree feedback, time-to-competence monitoring, quarterly and annual review cycles, succession planning data.

Platform Integrations

Y&Now integrates with the systems your organisation already uses:

Integration type	Supported systems / standards
HRMS	SAP SuccessFactors · Darwinbox · [INSERT: additional HRMS supported — Product team]
ERP	SAP · [INSERT: additional ERP platforms — Product team]
Authentication	SSO/SAML · OIDC · SCIM provisioning for automated user management
Content standards	SCORM 1.2 · SCORM 2004 · xAPI (Tin Can) · cmi5

API	REST APIs for custom integrations · iPaaS connectors · SFTP for bulk data exchange
LRS	xAPI-compatible Learning Record Store for activity tracking across all delivery modes

Talent Management Suite — 6 Steps (COMPLETE REWRITE — all 6 steps are currently identical on the live site)

The current live site shows identical copy for all 6 steps. Replace each step with the distinct content below:

Step 1: Client Onboarding & Alignment

We begin with a structured discovery session covering your workforce structure, role requirements, SOPs, safety mandates, and existing capability gaps. Outputs: role profiles, a competency framework, and a deployment roadmap aligned to your business priorities. This stage typically requires 2–3 working days of your L&D lead's time.

Step 2: Talent Assessment & Baseline Mapping

Role-based assessments establish a competency baseline for each employee. We combine scenario-based evaluations, technical checks, and compliance audits to map current skill levels against job requirements. Outputs: individual skill heatmaps, team-level gap reports, and a prioritised intervention plan.

Step 3: Personalised Learning Path Creation

Learning paths are built per role and per individual, drawing from Y&Now's content library, client-specific SCORM/xAPI modules, AR/VR simulations, and microlearning assets. Each path is sequenced to move learners from baseline to role-proficient in the shortest effective time, with manager visibility at each milestone.

Step 4: Continuous Performance Monitoring

As learning progresses, OKRs and performance milestones are tracked through the PMS. Supervisor check-ins and on-the-job evaluations validate whether learning is translating into workplace execution. Data flows into your HRMS for consolidated reporting, and alerts flag learners who are falling behind schedule.

Step 5: Engagement & Retention Programmes

Beyond initial capability building, Y&Now supports ongoing engagement through refresher modules, peer cohorts, recognition frameworks, and career development pathways. This reduces post-training attrition and sustains performance improvement over time by connecting learning to visible career progression.

Step 6: Analytics & ROI Reporting

Real-time dashboards show completion rates, competency progression, assessment scores, OKR achievement, and time-to-competence. Monthly or quarterly impact reports are shared with L&D leadership, aligned to agreed KPIs and business objectives. Data is exportable to your BI tools or HRMS reporting layer.

Data Security & Compliance FAQ (COMPLETE REWRITE — current answers are scrambled)

The following FAQ answers replace the scrambled answers currently live on /our-platform. All 8 answers are new and correct. Implement immediately.

How does Y&Now protect user data?	Y&Now implements role-based access controls, TLS-encrypted data transmission, and full audit logging across all platform interactions. Administrative access operates on a least-privilege basis. All API connections between the platform and client HRMS/ERP systems use authenticated, encrypted channels.
Where is user data stored?	User data is stored on [INSERT: hosting region and provider — e.g. AWS Mumbai — Tech/Infrastructure team]. Data residency documentation is available on request for enterprise clients with specific regulatory requirements.
Does Y&Now comply with data protection regulations?	Y&Now operates in accordance with applicable Indian data protection legislation. Enterprise clients with cross-jurisdictional requirements — including GDPR — can request a Data Processing Agreement. [INSERT: confirm specific compliance certifications — Legal team]
Who owns the data on the platform?	All learner data, completion records, and assessment results generated by an enterprise client's workforce remain the property of that client organisation.

	Y&Now does not use client data for any purpose outside of service delivery. This is documented in the client service agreement.
How is access to sensitive data controlled?	Access is governed by role-based permissions. Learners see only their own records. Managers see data for their direct reports. Administrators access organisation-wide analytics. All access is logged and available for audit at any time.
Are assessments and certifications secure?	Assessments use session controls, authentication checks, and audit logs. Proctored delivery is available for high-stakes certifications. Certificates are digitally issued with unique verification links. [INSERT: confirm specific proctoring tools — Product team]
Can enterprise clients request security documentation?	Yes. Enterprise clients can request a Security Overview Document, a Data Processing Agreement, and ISO 9001:2015 certification documentation. Contact: info@broadarks.com with subject line 'Security Documentation Request'.
What happens in the event of a security incident?	Y&Now maintains an incident response protocol. In the event of a security incident affecting client data, affected organisations are notified within [INSERT: notification timeframe — Legal/Tech team] in accordance with applicable regulations.

Page Copy

Industry-Specific Workforce Training Built for Technical Environments

OPENING PARAGRAPH

Y&Now designs sector-specific training for industrial workforces — combining blended learning, AR/VR simulation, and on-the-job evidence capture. Each programme is calibrated to the technical, safety, and compliance requirements of the specific sector, with traceable competency outcomes and NSDC/NCVET/DGT co-badging where applicable. We deliver to manufacturing plants, precision engineering facilities, and regulated industrial sites across India.

Manufacturing & Precision Engineering

Y&Now's manufacturing training programmes cover:

- CNC machine operation — setup, programming, and quality control
- Welding certification — SMAW, GTAW, GMAW to WPS standards
- Total Productive Maintenance (TPM) and SMED
- EHS compliance — hazard identification, incident reporting, emergency response
- Quality management — FPY (first-pass yield), RCA (root cause analysis), NDT protocols
- AR/VR simulation labs for high-risk procedures — enabling practice without production risk

Case Evidence

REPLACE 'Acme Plant' placeholder with verified client reference. Use one of the formats below:

Option A (named client with permission): 'A pilot programme at [CLIENT NAME]'s [LOCATION] manufacturing facility reduced first-pass yield defects by 18% within 8 weeks of completing Y&Now's precision quality programme.'

Option B (anonymised): 'A pilot at an automotive components manufacturer in [state, India] reduced first-pass yield defects by 18% within 8 weeks.' [INSERT: confirm approved version — Account team]

Accreditation & Certification

- NSDC training partnership — co-badged certifications for eligible programmes

- NCVET and DGT qualification alignment — [INSERT: confirm specific qualifications — Accreditation team]
- ISO 9001:2015 certified delivery process (BroadArks Technology Pvt. Ltd.)

INDUSTRY FAQ

What sectors does Y&Now cover for industrial training?	Y&Now currently delivers industrial training for manufacturing, precision engineering, automotive components, energy, and regulated chemical/process environments. [INSERT: confirm full active sector list — Programme team]
Does Y&Now provide AR/VR simulation for hazardous processes?	Yes. Y&Now deploys AR/VR simulation for high-risk procedures including welding, heavy machinery operation, chemical handling, and emergency response scenarios. Simulation allows skill practice without production risk or consumables cost.
Are Y&Now industrial programmes NSDC-accredited?	Select programmes are co-badged with NSDC. NCVET and DGT alignment is available for applicable qualifications. We confirm accreditation applicability at programme scoping. [INSERT: current NSDC-accredited programme list — Accreditation team]
Can Y&Now deliver training inside our plant facility?	Yes. Y&Now delivers on-site, at dedicated training centres, or through a blended model combining both. We have experience operating within active production environments and follow your site safety protocols throughout delivery.
How does Y&Now measure the outcome of industrial training?	Outcomes are measured through post-assessment competency scores, supervisor-validated sign-offs, and operational performance signals such as FPY improvement, incident rate reduction, and OEE (Overall Equipment Effectiveness) change. [INSERT: confirm specific outcome measurement framework — Programme team]

About Y&Now — Future-Skills EdTech Division of BroadArks Technology

OPENING PARAGRAPH

Y&Now is the future-skills EdTech division of BroadArks Technology Pvt. Ltd. We build workforce capability for enterprises, government bodies, defence establishments, communities, and schools through industry-aligned programmes and a proprietary digital platform. Headquartered at Sagar Premium Tower, Kolar, Bhopal, Madhya Pradesh, and ISO 9001:2015 certified.

Our Mission

To close the gap between what India's workforce can do and what India's industries need — through capability programmes and assessment systems that connect directly to performance.

Who We Serve

- Enterprises across manufacturing, retail, financial services, energy, and logistics
- Corporate CSR sponsors funding community skilling and livelihood programmes
- Government bodies and PSUs including Indian Army, Indian Oil, NSDC, and state skill missions
- Defence establishments and veteran resettlement programmes
- Schools and educational institutions preparing students for industry entry
- Individual learners seeking industry-recognised vocational qualifications

Our Parent Company

Y&Now operates as the EdTech division of BroadArks Technology Pvt. Ltd. The parent company's website is broadarks.com. All commercial contracts, invoicing, and legal agreements are executed under BroadArks Technology Pvt. Ltd. Y&Now's contact for all commercial and programme enquiries: info@broadarks.com.

BroadArks Foundation (broadarksfoundation.org) is a separate registered charitable entity. It is not part of BroadArks Technology Pvt. Ltd. and has no commercial or legal relationship with Y&Now.

Certifications & Credentials

- ISO 9001:2015 — Certificate number: [INSERT — Legal/Compliance] · Validity: [INSERT — Legal/Compliance]
- NSDC Training Partnership — [INSERT: current partnership scope — Accreditation team]
- NCVET/DGT qualification alignment — [INSERT: confirm applicable qualifications — Accreditation team]

Strategic Partners

Y&Now works with a network of implementation and academic partners:

- MPIHTTS Bhopal — Madhya Pradesh Institute of Hotel Management, Tourism, and Travel Studies
- CRISP — Centre for Research and Industrial Staff Performance, Bhopal
- iACE — Industry Academia Centre of Excellence
- IIP — [INSERT: full name — Business team]
- Sagar Institute of Research & Technology, Bhopal
- CVRU — C.V. Raman University
- SGSU — Sardar Gulab Singh University

ABOUT FAQ

What is Y&Now?	Y&Now is the future-skills EdTech division of BroadArks Technology Pvt. Ltd. We deliver workforce capability programmes and a digital capability platform for enterprises, CSR sponsors, government bodies, defence establishments, and schools across India.
Where is Y&Now based?	Y&Now is headquartered at Sagar Premium Tower, Phase I, Block C-1, CP-02, JK Hospital Road, Kolar, Bhopal – 462042, Madhya Pradesh, India.
Is Y&Now the same as BroadArks Foundation?	No. Y&Now is a commercial EdTech division of BroadArks Technology Pvt. Ltd. BroadArks Foundation is a separate registered charitable entity operating at broadarksfoundation.org. The two entities have different legal registrations, purposes, and contact details.
Who owns Y&Now?	Y&Now operates under BroadArks Technology Pvt. Ltd. All commercial contracts and legal agreements are executed under this entity.

Structured Transition Programmes for Armed Forces Veterans

OPENING PARAGRAPH

Y&Now supports armed forces veterans in transitioning to civilian employment through structured, industry-aligned programmes. We combine skills assessment, vocational training, and employer connections to ensure post-service personnel enter civilian roles where their discipline, capability, and leadership experience translate directly into productive employment.

Programme Design

- Skills assessment: mapping transferable capabilities from service roles to civilian job families
- Sector-specific vocational training: manufacturing operations, security management, logistics, facilities management, and other sectors with strong demand for veterans
- Soft skills for civilian environments: communication adaption, team dynamics, and commercial awareness
- Employer linkage: direct connections to companies with stated preference for veteran hires
- [INSERT: specific programmes and delivery formats — Defence programme lead]

Partner Organisations

Y&Now has delivered veteran-focused programmes in partnership with:

- Indian Army — [INSERT: specific programme scope — Defence programme lead]
- [INSERT: BSF, Bhartiya Vayu Sena, or other armed forces partnerships — confirm with Defence team]

Impact Data

[INSERT: Number of veterans supported — M&E team]

[INSERT: Employment linkage rate for veteran participants — M&E team]

[INSERT: Average time from programme completion to employment — M&E team]

DEFENCE FAQ

What types of roles do veterans typically transition to through Y&Now programmes?	[INSERT: confirm target job families — Defence programme lead. Suggested: manufacturing supervision, security management, logistics operations, facilities management, EHS compliance roles]
Can corporate CSR budgets fund Y&Now veteran transition programmes?	Yes. Veteran transition programmes may qualify under Schedule VII of the Companies Act, 2013. We recommend confirming the applicable schedule head with your legal team. Y&Now provides full documentation for CSR fund utilisation reporting.
How long does a Y&Now veteran transition programme run?	[INSERT: programme duration — Defence team]
Does Y&Now work directly with defence welfare organisations?	Yes. Y&Now co-designs and delivers programmes in partnership with defence welfare bodies. [INSERT: specific partnership arrangements — Defence programme lead]
How does Y&Now account for the existing skills veterans bring?	Y&Now's assessment stage maps transferable capabilities from service roles — leadership, technical skills, discipline frameworks, and operational decision-making — onto civilian job requirements, ensuring the programme focuses on genuine gaps rather than retraining existing strengths.

Industry-Readiness Programmes for Schools: NSQF-Aligned, Employer Co-Designed

OPENING PARAGRAPH

Y&Now delivers NSQF-aligned vocational and applied skills programmes for secondary and senior secondary students — co-designed with industry employers to ensure the skills taught match the competencies employers actually need. Our school programmes combine practical training, assessment, and industry connections to help students enter employment or continue vocational education with a credible, employer-recognised qualification.

What We Deliver for Schools

- NSQF-aligned vocational courses across [INSERT: confirmed sectors/qualification levels — School Solutions lead]
- Industry co-designed curriculum with input from employers in manufacturing, retail, financial services, and hospitality
- In-school facilitators and digital learning tools — blended delivery
- Student assessment and NSQF certification on programme completion
- Placement linkage: employer connections for students completing the programme
- Teacher training: capacity building for school faculty on vocational pedagogy

Student Outcomes

[INSERT: number of students trained — M&E team]

[INSERT: NSQF qualification pass rate — M&E team]

[INSERT: employment or further education linkage rate — M&E team]

SCHOOL SOLUTIONS FAQ

What NSQF levels does Y&Now deliver for schools?	[INSERT: confirmed NSQF levels and sectors — School Solutions lead and Accreditation team]
--	--

How is Y&Now's school programme delivered — classroom or online?	Y&Now uses a blended model: in-school facilitators for practical and applied modules, supported by digital self-paced content. We work within the school's timetable and physical infrastructure. [INSERT: confirm specific delivery model — School Solutions lead]
Does Y&Now provide the equipment for vocational labs?	[INSERT: confirm whether Y&Now supplies, co-invests, or requires school equipment — School Solutions lead]
Can state government or district education offices engage Y&Now at scale?	Yes. Y&Now has experience working with [INSERT: state/district bodies — Government team]. Large-scale deployments use a hub-and-spoke model with master trainers and standardised quality assurance. Contact: info@broadarks.com
Do students receive a nationally recognised certificate?	Students completing eligible programmes receive NSQF co-badged certifications recognised by [INSERT: awarding body — Accreditation team]. These certifications are portable and can support entry into employment or further vocational training.

Livelihood & Micro-Entrepreneurship Programmes That Generate Measurable Income

OPENING PARAGRAPH

Y&Now designs and delivers livelihood and micro-entrepreneurship programmes for women, Self-Help Groups (SHGs), and marginalised communities. Our programmes combine vocational training, business development skills, and market linkage — creating sustainable income pathways that are measurable, documentable, and aligned to CSR compliance requirements under Schedule VII of the Companies Act, 2013.

Programme Components

- Vocational skills training: sector-relevant skills matched to local market demand
- Business development: costing, pricing, quality standards, customer acquisition, and record-keeping for micro-enterprise owners
- Market linkage: connections to buyers, aggregators, e-commerce platforms, and local trade networks
- SHG strengthening: group formation, governance, savings and credit practice, and peer support
- Mentorship: ongoing support from Y&Now facilitators and sector-expert mentors during and after training

Impact Measurement

[INSERT: verified outcomes — M&E team]

- [INSERT: number of women trained]
- [INSERT: % reporting income generation within 6 months of programme completion]
- [INSERT: average income increase — percentage or absolute figure]
- [INSERT: SHGs strengthened or formed]

MICRO-ENTREPRENEURSHIP FAQ

Does Y&Now's livelihood programme qualify under CSR Schedule VII?	Yes. Livelihood and micro-entrepreneurship programmes for women qualify under Schedule VII item (iii) — Promoting gender equality and empowering women. Programmes targeting poverty alleviation may also qualify under item (i). Consult your legal team on the specific applicable head.
What sectors do participants typically train in?	[INSERT: active livelihood sectors — Programme team. Examples: food processing, tailoring, handicrafts, retail, beauty and wellness, digital services]
How does Y&Now ensure income generation actually happens?	We track participants at 3 months and 6 months post-programme through structured follow-up surveys and field verification. Outcome reports include income generation data, employment status, and SHG participation.
Can Y&Now customise the programme for a specific geography or community?	Yes. Every livelihood programme begins with a community needs assessment that maps local market demand, existing skills, and infrastructure constraints. Programme design is customised accordingly.
Does Y&Now provide market linkage as part of the programme?	Yes. Market linkage is an integrated component of Y&Now's livelihood model — not an optional add-on. We connect participants to buyers, aggregators, and trade networks during the programme, not after it ends.

Get Industry-Ready. Get Placed. Start with Y&Now.

OPENING PARAGRAPH (THIS IS THE MOST PLAIN-LANGUAGE SECTION ON THE SITE)

Y&Now offers industry-recognised courses that prepare you for real employment. Every course is co-designed with employers, so you learn exactly what companies are hiring for — not generic textbook content. Complete your course, earn your NSQF certification, and access Y&Now's employer connections for placement support.

Why Y&Now for Individual Learners

- Courses co-designed with employers — so you learn what's actually needed on the job
- NSQF certifications — nationally recognised qualifications accepted by employers across India
- Placement support — Y&Now connects completing learners to hiring employers
- Blended delivery — choose in-person, online, or a combination
- Shorter durations — most courses run 4–12 weeks, not years

Available Courses

[INSERT: current course list with sector, duration, NSQF level, and fee — School Solutions/Learner team]

Sectors currently available: [INSERT: confirm active learner sectors — e.g. manufacturing, retail operations, financial services, IT support, hospitality]

LEARNER FAQ

Do I need any qualifications to join Y&Now courses?	Eligibility varies by course. Most entry-level vocational courses require Class 10 pass. Some advanced courses require Class 12. [INSERT: per-course eligibility — Learner team]
How long do Y&Now courses take?	Course durations range from [INSERT: shortest] to [INSERT: longest]. Most employability courses run 4–12 weeks. [INSERT: confirm per-course durations — Learner team]
What does a Y&Now course cost?	[INSERT: course fee range or fee-waiver conditions — Learner team. Note: CSR-subsidised courses may have zero fee for eligible candidates.]

Will Y&Now help me find a job after I complete the course?	Y&Now provides employer connections and placement support for learners who complete the programme and meet the assessment requirements. We cannot guarantee employment, but we maintain active relationships with [INSERT: number] hiring employers. [INSERT: placement rate — M&E team]
Are Y&Now certifications recognised by employers?	Yes. Y&Now certifications are NSQF-aligned and co-badged with [INSERT: awarding body — Accreditation team], which is recognised by employers across manufacturing, retail, and service sectors in India.

Frequently Asked Questions — Y&Now Workforce Capability Programmes & Platform

This page answers the most common questions about Y&Now's programmes, platform, and partnership process. If you have a question not covered here, contact us at info@broadarks.com.

About Y&Now

What is Y&Now?	Y&Now is the future-skills EdTech division of BroadArks Technology Pvt. Ltd. We deliver workforce capability programmes for enterprises, CSR sponsors, government bodies, defence establishments, schools, and individual learners. We also operate a proprietary digital platform integrating LMS, assessment, and OKR-based performance management.
Who is Y&Now's parent company?	Y&Now operates under BroadArks Technology Pvt. Ltd., headquartered in Bhopal, Madhya Pradesh. The parent company's website is broadarks.com . All contracts and legal documentation are executed under BroadArks Technology Pvt. Ltd.
Is Y&Now the same as BroadArks Foundation?	No. BroadArks Foundation is a separate registered charitable entity at broadarksfoundation.org . It has its own legal registration and is not part of BroadArks Technology Pvt. Ltd. or Y&Now.
Is Y&Now ISO certified?	Yes. Y&Now operates under BroadArks Technology Pvt. Ltd., which is ISO 9001:2015 certified. Certificate: [INSERT number — Legal/Compliance]. Validity: [INSERT date — Legal/Compliance].
How many organisations has Y&Now worked with?	Y&Now has partnered with [INSERT: current figure — Business team] organisations, including Tata Group, JSW, Castrol India, BPCL, Jaquar, Indian Army, Indian Oil, Boeing, Reliance Foundation, and NSDC.

Corporate Programmes

What does a corporate Y&Now engagement typically involve?	A corporate engagement moves through five stages: Assess (competency baseline), Train (personalised learning paths), Apply (on-the-job verification), Perform (OKR tracking), and Improve (analytics-driven optimisation). The full cycle runs 12–16 weeks, with quarterly review touchpoints.
---	--

How does Y&Now measure corporate training outcomes?	Outcomes are measured through pre/post-assessment scores, OKR achievement rates, supervisor-validated competency evidence, and operational signals such as incident rates, conversion rates, or error rates. Clients receive real-time dashboards and quarterly impact reports.
Can Y&Now deliver training across multiple locations?	Yes. Y&Now uses a mix of in-person facilitators, virtual instructor-led sessions, and self-paced digital content to deliver across geographically distributed organisations. [INSERT: current multi-site delivery footprint — Operations]
Does Y&Now work with CHRO or L&D teams directly?	Yes. Our primary engagement point for enterprise clients is the L&D head or CHRO. We can also engage with procurement or CSR teams as the initial contact. Email info@broadarks.com to begin a conversation.

CSR Programmes

Which Schedule VII items do Y&Now's CSR programmes qualify under?	Skill development and employability programmes qualify under item (ii). Livelihood and women's programmes qualify under item (iii). Community development may qualify under item (i). Confirm the specific applicable head with your legal team before commitment.
How does Y&Now report CSR fund utilisation?	Y&Now provides quarterly utilisation statements, mid-programme progress reports, and a comprehensive final impact report with beneficiary data, attendance registers, assessment results, employment linkage evidence, and photographic documentation.
Can Y&Now manage the complete CSR programme from design to reporting?	Yes. Y&Now manages the full programme lifecycle — from community needs assessment through delivery, independent monitoring, and final compliance-ready reporting.

Platform

What does the Y&Now platform include?	The platform integrates a Learning Management System (LMS), role-based assessment tools, and OKR-based Performance Management into one system. It connects to HRMS and ERP platforms via REST APIs, SSO/SAML, and SCIM.
Which HRMS systems does Y&Now integrate with?	Y&Now integrates with SAP SuccessFactors, Darwinbox, and [INSERT: additional HRMS — Product team] via REST APIs, SSO/SAML, and SCIM provisioning.
Is Y&Now's platform mobile-accessible?	Yes. The platform is mobile-first with offline access capability. Learners can complete modules, submit assessments, and receive feedback on any device.
How is data security managed on the platform?	Y&Now uses role-based access controls, TLS-encrypted data transmission, and full audit logging. All client data remains the property of the client organisation. Full security documentation is available on request at info@broadarks.com .

Getting Started

How do I request a corporate training proposal from Y&Now?	Email info@broadarks.com with subject line 'Corporate Training Enquiry' and a brief description of your workforce size, sector, and capability requirement. Our team responds within 2 working days.
How do I request a platform demo?	Email info@broadarks.com with subject line 'Platform Demo Request'. We schedule a 45–60 minute walkthrough tailored to your HRMS environment and use case.
How do I explore a CSR programme with Y&Now?	Email info@broadarks.com with subject line 'CSR Programme Enquiry' and the geographic area, beneficiary group, and approximate budget. Our CSR team will contact you to explore programme design options.
